Features

Data

1 API for 17 Blockchains

Join thousands of crypto companies, analysts, academics, and students which utilize Blockchair's REST API to fetch data and power their projects

Database and Full Node dumps

Insert TSV-files into your database server and run your analysis Get Full node dumps to speed up your node synchronization

Charts

Visualize blockchain data and compare trends across blockchains

ENS Lookup

Search Ethereum Name Service domain names

Services

Anonymous portfolio tracker

Track the performance of your crypto assets portfolio — completely anonymously

Transaction receipts

Get a PDF receipt for either you or your counterpart's purposes

Wallet statements

Get a report on your address holdings for any timeframe. Make your tax reporting and accounting less of a hassle.

Blockchair Awesome

Find and compare awesome blockchain and crypto products and services

News Aggregator

Catch up with the latest news from 60 biggest crypto outlets. Available in 11 languages

Blockchair Donut

<u>Donate to amazing nonprofits and open-source projects. Help crypto adoption and reduce tax payments</u>

Compare blockchains

Compare crypto by size, fees, transactions per second, and more

Release monitor

<u>Track upcoming hard forks and latest updates to cryptocurrency clients, like Bitcoin Core and Geth</u>

Broadcast transaction

Broadcast raw transactions for BTC, ETH, BCH, LTC, BSV, DOGE and GRS privately

Halving countdown

Miners, transaction fees and the block reward

Get Blockchair extension

Blockchair brings the search engine for 17 blockchains to your browser

Node explorer

Learn about node accessibility, locations, consensus and more
